FOR IMMEDIATE RELEASE

U.K. POLICE CASUALTY BUREAU AND KENYON CONDUCT LIVE DEMONSTRATION

Houston, September 1, 2013 - Kenyon International Emergency Services will host the United Kingdom Police Casualty Bureau and other visitors for a live demonstration of the Kenyon International Call Center (KICC), a tour of Kenyon's Bracknell operations and a review of the real-time multi-agency data sharing capabilities of Kenyon Response™, Kenyon's proprietary data management system on September 3-4, 2013.

The live demonstration will include interaction with Kenyon's state-of-the-art emergency call center for concerned families is located in Santo Domingo, Dominican Republic and ready for activation 24/7 on behalf of our retained clients. For the live demo, five inbound Call Center agents will receive calls based on a fictitious scenario involving an aircraft accident. Two additional data management agents will receive the Persons Directly Affected (PDA®) list from the fictitious airline and upload the data into Kenyon Response. All collected data will then be exported for import into HOLMES 2, the UK Police Force's investigation management system.

The goal of this demonstration was to show how critical proper data capture and management is to crisis response and how coordination with appointed authorities is a vital part of pre-incident planning. Kenyon is a trusted partner for many government agencies and private organizations worldwide. Live demonstrations such as this event allow all parties to address the logistical and technical inevitabilities before the unthinkable occurs.

About Kenyon International Emergency Services, Inc.

Kenyon is the international leader in worldwide disaster management, providing pre-incident crisis planning and post-emergency response services on behalf of the world's foremost companies. Privately owned, Kenyon remains the only firm in its business with a hundred year history, comprehensive resources, and experience in every type of mass fatality accident including aviation, industrial and natural disasters, war and terror attacks.
