

## **Kenyon International Emergency Services, Inc. Previews Kenyon Response™ Incident Data Management Software System to IATA Emergency Planners**

**(Houston, Texas)** Kenyon International Emergency Services, Inc. has combined its vast knowledge with more than 100 years of experience managing mass disaster events worldwide to create Kenyon Response™, the next generation of incident data management software.

Robert Jensen, CEO, Kenyon International Emergency Services, Inc., (above and right) explains the major features of the software system to members of the IATA Emergency Managers Task Force at Kenyon's Bracknell office.

Kenyon Response™ is robust incident data management software system providing one central point of data collection and integration for all responders supporting and working an incident.

### **About Kenyon International**

Kenyon is an international leader in worldwide disaster management, providing pre-incident crisis planning and post-emergency response services on behalf of the world's foremost companies. Privately owned, Kenyon remains the only firm in its business with a hundred year history, comprehensive resources, and experience in every type of mass fatality accident

including aviation disasters, natural disaster, war and terror attacks. Headquartered in Houston, Texas, it has offices and facilities in Sydney, Australia, London, UK, and Beirut, Lebanon
